GAME™ INTRODUCES ENERGY EFFICIENT SOLUTIONS FOR THE BACKYARD

Get Smart and Celebrate Summer with Water-Powered Fountains, Cool LED Lights and a Solar Shower From GAME

Scottsdale, AZ. (Summer 2008) – Make your backyard smarter! This summer as more people search for different ways to save energy inside the home, it is now time to look right in your own backyard. GAME™ introduces a number of innovative energy-saving products that will save energy but still provide loads of fun!

With the Outdoor Solar Shower™, Rainbow Fountain™, Floating Glow Lantern™ and Underwater Light Show & Fountain™, you can transform your yard into a colorful spectacle without spending hefty dollars on electricity.

Harnessing the sun's energy, the **Outdoor Solar Shower** lets you enjoy a warm, refreshing shower right next to your pool or spa. The Solar Shower's design gets its heat from the sun which lets you adjust the temperature from hot to cold. Now you can easily wash off the dirt before jumping into the pool and the chlorine after you swim! No installation or plumping required. Just attach to a garden hose and you are ready to go. Built for the outside with non-corrosive materials, the Outdoor Solar Shower's durable construction will last all year long.

No electricity required! Solely powered by water, the popular **Rainbow Fountain** provides you with an exhilarating water and color changing light show. Combining water movement and LED lighting effects, the Rainbow Fountain creates a unique and enchanting show that is sure to enliven your outside décor. Just attach a garden hose or pool return line and let your electrifying light show begin. The AquaGlow Rainbow Fountain can be used with both in ground and above ground pools.

Now you can illuminate your patio, deck, pool or spa in an energy-efficient way. The **Floating Glow Lantern** creates an exotic and colorful ambiance utilizing the latest in modern technology while adding character. Each lantern has four different LED lighting modes showcasing a variety of vibrant colors; fading

from blue to green to red. Group multiple lanterns together on the patio and you'll have a lively and sensational spectacle. For a more romantic atmosphere hang them from an umbrella then sit back and relax under the evening glow.

Tired of spending the money to light up your pool at night? GAME's award-winning **Underwater Light Show & Fountain** provides entertainment both below and above the water, all while lighting the pool without using any electricity! Get ready for a wet n' wild time as your pool transforms right before your eyes. While projecting light and color onto the bottom and sides of the pool, the Underwater Light Show & Fountain simultaneously shoots streams of color lit water above the surface. The Underwater Light Show & Fountain will take center stage as the pool floods with an array of vivid colors and lights.

At retailers nationwide this summer, the Outdoor Solar Shower is available for approximate retail price of \$199.99; Rainbow Fountain \$44.99; Floating Glow Lantern \$19.99 and the Underwater Light Show & Fountain \$49.99.

GAME (Great American Merchandise & Events) is recognized worldwide for its extensive line of pool and spa accessories including the popular Underwater Light Show™, as well as Derby Duck® and Turbo Turtle® fundraising events that have generated millions of fundraising dollars for charities across the globe.
